Project Your Vision

## Websites

From an information service to e-commerce, a website has become an indispensable window to the online world and offers many advantages for both customer and company.

Please visit the gallery on our website:  
[www.screenscape.co.uk](http://www.screenscape.co.uk)

ScreenScape specialises in creating an attractive on-line presence that reflects your individuality. Your website will be tailored to suit your needs, and may include text, graphics, photographs, sound, reply forms, counters, shopping-baskets, guest-books and more.

In addition to the design, layout and development of your website, we can also assist with domain name registration, hosting, registration with Search Engines and maintenance of your site.

## Multimedia CDs / DVDs

Bring your marketing materials to life by using the latest technologies in optical storage - CDs and DVDs can store both high quality video and audio.

Animation and full motion video can add new perspectives to your company's products and/or services.

With a self-running or interactive presentation featuring

narration and music your customers will enjoy and remember a captivating experience.

Due to their compact characteristics, huge savings can be made both in storage space and shipping costs.

## Print Media

Digital technology has not replaced the need for printed media. It has however, increased the need to create an outstanding impression.

ScreenScape can design and layout your books and manuscripts, flyers and posters, proposals and presentations, business stationery and corporate literature.

### Additional Services

#### Translation Service

For a multilingual website or multimedia CD/DVD we can translate your text into other languages. A proof-reading service is also available.

#### Digitization Service

We can convert your videos, photographs and typewritten documents into digital format.

## Movie Editing

We can cut, edit and store your documentary, company profile, celebration or wedding movie on DVD.

Options include animated chapter menus, background music and narration to complete the professional finish.
